Introduction to tandem paragliding...

Paragliding is a fun and peaceful outdoor activity that everyone can enjoy. Experience new sensations as you fly high as a bird. Just a few sturdy strides will get you in the air, where a new dimension awaits you, a scenic, serene world where you are free and at one with the elements. The flight lasts approximately 15 minutes.

Speleology (caves), canyoning, or gorge hiking...depending on the season and your preferences:

* Speleology (caves)

This activity is a scientific and educational look at natural cavities during which you will learn about speleology. You will also learn to identify different crystal formations (stalactites, stalagmites, curtains, etc.) and interpret the colors corresponding to different minerals.

Explore the fascinating underground world with geological, biological, and hydrological explanations all along the way.

* Gorge hiking

Swim in a protected natural environment, hike in deep gorges carved by rivers, slip down slick rock slides, plunge into the cool, clear waters at the foot of beautiful waterfalls...

* Canyoning

Safely and at your own pace, you'll jump, rappel, and slide through a magnificent protected setting of limpid pools, natural water slides, towering rock walls, and breathtaking landscapes.

Walk, swim, slide, jump...choose your own level and follow our guides as you live a novel adventure in the heart of the Alpes-Maritimes' most beautiful canyons.

Tree-top adventure course: It is the place for unique thrills aplenty !

The course is set on terraced land in Provence, near Grasse, with a panoramic view that never fails to take our clients' breath away.

It is is a fun activity center on a breathtaking site, you will appreciate the magnificent overview of the coast, the Lerins Islands, and Lake St. Cassien.

Our facilities offer circuits of varying heights and difficulty, from beginner level straight up to pure thrills, with more physical courses with suspended crossings, bridges, Tarzan jump, monkey bridge, zipline, beam, barrel crawl, nets, and more.
